“History is a clock  
That people use  
To tell their cultural  
and political time  
of day.”

John Henrik Clarke

**1.5** Learn More About Africa  
In Only 1.5 Hours a Week  
It's AfriTime - 4 (2 NEW!)  
CLASSES offered This Month!!

*Affordable Lifelong Learning*

Where do you go when you or your children want to learn more about African history, science and culture? Chinese people go the Chinese Saturday Schools, Korean people go to Korean afterschool programs or Saturday schools. Well, why not us? Now African people have AfriVentures! Do you often find yourself wishing you or your children knew more about African history, science and culture? or Are you looking for ways to supplement your children's education with more knowledge about themselves? Then join us for an online AfriVenture. This month we are offering 4 AfriVentures 2 New!- one for adults and 3 for children. **Register Today!** Click on the links below for more information.

*" AfriVentures were a success for our entire family....(it) was a great learning experience and so much family fun...! Thanks again Mwalimu for this phenomenal learning experience." -Onile Fluker*

**A boy is walking down the road with a doctor. While the boy is the doctor's son, the doctor isn't the boy's father. Then who is the doctor?**

Send in your answers and your name will be announced in the next newsletter!

**AfriFacts Did you know?**

And if you didn't know, now you know!

Nearly half of the gold ever mined in the whole world comes from Witwatersrand South Africa.

Almost a third of all the world's languages are spoken only in Africa.

Africa is the only continent that is in all four hemispheres and the only to have land on the prime meridian and the equator.

S N E P  
P L I P  
H I I

The letters above spell a word. Can you figure it out? *Hint: It is a country*

Sharpen Your Eyes

HOW MANY FACES DO YOU SEE IN THE PICTURE BELOW?

**Did You Know?:** New animal species are being found everyday! Look at this turtle below.

This dinosaur-like turtle is a real one and was found on the shore of Russia. After several studies, this odd creature was then identified as an "alligator snapping turtle", considered as the heaviest freshwater turtle in the planet.

**March 21st is important because it is:** (a) The spring equinox (b) New Year's day on the Iranian calendar (c) The last day of Pisces and first day of Aries (d) All of the above
