

Adinkra Symbols with Meanings

Adinkra literally translates as farewell or goodbye in a large loose linguistic grouping of the Fante, the Akan, the Ashanti and the Akuapem from Ghana.

However, they are widely used across Africa and in the diaspora. They are visual representations of proverbs with significant historical and philosophical meaning

Adinkra cloth was originally worn by royalty. It is still commonly found at ceremonies and funerals, however it is also now used to bring meaning to furniture, sculpture, earthenware pots and casual wear.
